

YuleLog 2018 Hallmark Digital Download

Update Installation Instructions – Mac

Saving Backup File

- 1. Before installing the update, run YuleLog 2017 or your most recent version of the software**
- 2. At the Main Menu, click on the Utilities button.**
- 3. Click on the “Save Backup Files” button**
This will save a copy of your ornaments in a file called backup.fmp12. It will be located in your YuleLog 2017 folder
- 4. Quit the YuleLog program**
- 5. Install the new version using the following instructions:**

Installing YuleLog 2018 and Importing Backup Files

All of the necessary files are included in the YuleLog2018Update.zip folder you downloaded from Payloadz.

- 1. Open YuleLog 2018(Hallmark).dmg**
- 2. After verification, drag the YuleLog ornament icon to the Applications folder in the window that comes up**
- 3. After the program is done copying, open it from your Applications folder. It is called YuleLog 2018 Hallmark**
- 4. You will be presented with a form to fill out. This name and address form should be filled out with the information you want to appear on any reports. After completing this form, click on the Continue button to get to the opening screen.**
- 5. When prompted, click the button labeled UPDATING FROM OLDER VERSION**
- 6. Drag the backup.fmp12 file you saved from YuleLog 2017 to the container field indicated by the on-screen instructions.**
- 7. Click the “Import Backup File” button. YuleLog will import the records from your backup file.**
- 8. Click the “OK” button on the dialog box that comes up to view your collection**
- 9. After you are sure your collection has been restored, and YuleLog 2018 has been installed successfully, you can delete the previous version of YuleLog to save space on your hard drive.**
