Update Installation Instructions – Mac

BEFORE INSTALLING YULELOG 2018

1. Open YuleLog 2017 or the latest version of the software that you have
2. Go to the Utilities menu
3. Click SAVE BACKUP FILES
4. This will save a backup file in your YuleLog 2017 (Hallmark) folder called backup.fmp12
5. You will need this file to restore your files in the new version

INSTALLING YULELOG 2018

The DVD in the package you purchased contains the YuleLog 2018 program and the photos file that it uses. This DVD also includes new secondary market prices for Hallmark ornaments.

1. Insert the YuleLog 2018 DVD into your computer
2. Open the Finder
3. Double Click on the YuleLog 2018 DVD
4. Open the Mac folder
5. Open YuleLog2018(Hallmark).dmg
6. After verification, drag the YuleLog ornament icon to the Applications folder in the window that comes up
7. After the program is done copying, open it from your Applications folder
8. You will be presented with a form to fill out. This name and address form should be filled out with the information you want to appear on any reports you generate. After completing this form, click on the Continue button to get to the opening screen.
9. When prompted, click the button labeled UPDATING FROM OLDER VERSION

RESTORING FROM BACKUP FILES

1. Follow the on-screen instructions. You will be prompted to drag the backup.fmp12 file you saved earlier to a container field in the YuleLog 2018 program. All you have to do is drag and drop your file to this field.
2. Click the IMPORT BACKUP FILE button (make sure your backup.fmp12 file is in the container field). Your backup file will be imported and you can resume managing your collection!
